1869/1870, First (416 pp.)  http://nrs.harvard.edu/urn-3:FHCL:698216

"In addition to the general subject-matter suggested by the Resolve creating this Bureau, and germane thereto, there will be found herein a brief sketch of the history of labor and laborers, and of the poor, and of the legislation in reference to them in England, from the beginning of the 14th century down to the present time...We have also attempted a history of the same subjects in Massachusetts...To these is added the testimony, written and oral, of actual operatives and laborers..." (Introduction)

The appendix includes tables listing occupations, nationalities, wages, hours of labor, habits, education, wages for 1861 and 1869, employment in cotton and woolen factories, pp. 199-416.

Remarks of a Working Women, their Condition, Wages, etc. etc.

1870/1871, Second (655 pp.)  http://nrs.harvard.edu/urn-3:FHCL:698217

"The present Report will embrace information on new and interesting subjects, among them being an account of the origin of combination, and its development into Gilds of ancient times with their several varieties (necessarily derived from foreign sources), and the Trades- Unions of modern days...Following these, there is given information upon agricultural, domestic, commercial, manufacturing, mechanical and other industrial subjects... wages, earnings and cost of living, methods of work, working time, hours of labor, educational condition, women's work and wages, factory life, child-labor with tables and their explanation, comments thereon and conclusions..." p. 3-4.

Special subjects in this volume include: savings banks, investigations into the establishment of co-operatives, the employment of children in factories, impact of the voluntary reduction of hours of labor, wages abroad, and an examination of the homes of the poor in Boston.

- "The information contained therein was derived from the schedules of the State Census of 1895. The object of the presentation was to show not only the number born in a specified country, but to include therewith those having a father and mother or a father born in that country, the number thus ascertained indicating the 'race.'" (p. vii.)

- "By means of these figures it was possible to secure statistics of racial descent to use in a sociological way, but not from an industrial standpoint. There are few, if any, States in the Union which have gained as much numerically from the flood of immigration as Massachusetts." (p. 3)

- Includes the following tables:
  - Occupations of persons of specified descent by sex with classifications by classes and subdivisions of productive industries.
  - Recapitulation of the above, for the State, by classes of occupations only, with percentages.
Recapitulation for the state, by sex and occupation classes, showing also native born for Massachusetts and "other states," and foreign born by specified countries and "other countries."

Social and Industrial Condition of the Negro in Massachusetts, p. 217-320.

- "The various subjects treated in this Part are the early history and condition of the negro in Massachusetts, population, occupations, vital statistics, ownership of farms and homes, pauperism and crime, education, and churches and social organizations together with data regarding a recent conference at Tuskegee, Alabama. The presentations are purely statistical in their nature, with only such editorial comment as will serve to introduce or explain the tables. We do not feel that it is within the province of this Department to treat of the social equation of the white and black races, and, therefore, leave to students of racial conditions the opportunity to make their own deductions."
